## JOB DESCRIPTION

Job Title	River flood forecasting specialist	
Division	Technical Support Division	
Level	M12	
Report to	Director	
Job Code	RP039.T/S	
Date of verification	March 2016	i
Duty Station	Office of the Secretariat in Phnom Penh, Cambodia	1

#### The Mekong River Commission

The Mekong River Commission (MRC) was established by the 1995 Agreement on Cooperation for the Sustainable Development of the Mekong River Basin, between the governments of Cambodia, Lao PDR, Thailand and Viet Nam. The role of the MRC is to coordinate and promote cooperation in all fields of sustainable development, utilization, management and conservation of the water and related resources of the Mekong River Basin.

The MRC Secretariat is the operational arm of the MRC. It provides technical and administrative services to the Joint Committee and the Council to achieve the MRC's mission.

#### VISION for the Mekong River Basin:

An economically prosperous, socially just and environmentally sound Mekong River Basin

### VISION for the Mekong River Commission:

A world class, financially secure, International River Basin Organisation serving the Mekong countries to achieve the basin Vision

#### **MISSION of the Mekong River Commission**

To promote and coordinate sustainable management and development of water and related resources for the countries' mutual benefit and the people's well-being

#### **MRCS** values

- Integrity
- Transparency
- Mutual respect
- Professionalism
- Accountability
- Results orientation

## 1. Job Summary / Job Statement

The jobholder oversees the operation of the Regional flood management center and ensures the provision of accurate and timely forecasting and early warning information products. He or she supports the Member Countries in managing the river flood forecasting along mainstream stations in the flood season, water level monitoring in the dry season and provides country-wide (LMB-wide only for Thailand) flash-flood guidance in flood season. Moreover, he or she supports MRC Member Countries in developing capacities for effective management of drought risks in the LMB. He or she therefore uses relevant monitoring systems and assures the timely dissemination of regional flood forecasts and warnings (alerts) to stakeholders, as well as information on drought.

### 2. Main tasks and responsibilities

Under the management direction of the Division Director and technical advice of the Chief Hydrologist and in close collaboration with the Operational hydrometeorologist/forecaster, the incumbent performs the following duties:

- Receive and check quality of incoming hydro-met data transmitted from monitoring stations in Member Countries, verify model input data, simulate water levels and provide forecasting analyses based on model results;
- Provide regular forecasting services to Member Countries, e.g.:
  - Flood season: daily 1-5 days flood forecast
  - o Dry season: weekly water level forecast
  - o Provide flash flood guidance at village (CMA-LAO) and district levels (TL-VN)
  - o Provide flash-flood analysis based on retrieved maps and create villageand district level-flash flood alerts
  - o Drought monitoring and forecasting in the whole LMB
- Calibrate and update forecasting models, in close cooperation with the Modellers;
- improve and ensure accuracy of flood forecasting system;
- Improve Flood Early Warning System and ensure bias correction;
- Disseminate forecasts and warnings to stakeholders through MRC website and agreed mechanisms with Member Countries;
- Prepare report on forecasting and guidance activities as required;
- Contribute to the development of relevant technical guidelines as led by other specialists / Divisions;
- Provide technical support to the work of the MRC's regional technical/expert group related to flood risk management, climate change, and/or emergency response (if applicable), and contribute to the work of other regional groups as required;
- Ensure that relevant knowledge and products developed by the MRC are available at the national level to assist decision-making processes;
- Contribute to and support the implementation of the MRC Procedures, especially in what regards river monitoring:
- Perform other relevant tasks as required.

## 3. Scope of Authority

a) Supervision requirements: The position holder supports the Division Director to supervise the Assistant forecaster.

b) Level of autonomy: Decision making follows defined procedures. The position does not administer a budget, yet has responsibility for ensuring the financial accountability of MRC.

c) Level of problem solving required: Problem solving skill is expected and the incumbent must display sensitivity, initiative and creativity

d) Level and type of communications required: Communications are wide, within and outside the organisation, and require considerable oral and written skills.

4. Qualificatio	n requirements
Certificate	University degree (Master or higher) in hydrology, hydraulic engineering or other related field
Additional certificates	<ul> <li>TOEIC certificate with 600 points and over is required. An equivalent internationally recognized certificate or a university degree from an internationally recognized academic institution whose instruction is in English may also be considered.</li> </ul>
Experience	<ul> <li>Minimum 10 years of experience in developing and implementing river forecasting and modelling in large rivers</li> <li>Minimum 7 years of experience in hydrological modelling and/or operational flood forecasting</li> <li>Operational management of flood forecasting systems is highly desirable</li> </ul>

5. Competencies		
Knowledge		Level (1-3)
		1 = Required
		2 = Desirable
		3 = Optional
Hydrological forecasting models		1
Computer programming languages		1
New technologies and emerging trends in flood	forecasting	1
Operational management of flood forecasting systems		2

Skills	Level (1-3) 1 = Required 2 = Desirable 3 = Optional
Fast system operating	1 .
Time management	1
Problem solving (e.g. imperfect data)	1
Cross-cultural and interdisciplinary communication	1
Dissemination of information and wamings	1
	2

Attitudes

Level (1-3)

	1 = Required 2 = Desirable 3 = Optional
Willingness to undertake regular field trips to identify and solve problems with stations	1
Work outside of normal office working hours in flood season, taking shift work in order to guarantee 24/7 forecasting availability	1
Attention to details	11
Autonomous working	2

#### 6. Remuneration

The remuneration package, subject to change, includes (i) annual net base salary exempt from tax by Cambodian authorities, starting at US\$ 33,440 (M11, step I); (ii) MRC's contribution to staff member's Provident Fund of 14% of basic salary upon completion of 3 years in service; (iii) Contribution of MRC to Health and Accident insurances (on shared basis with employee); (iv) other entitlements and benefits such as dependency allowance, 6 weeks' annual vacation; sick leave, matemity leave etc.

Non-resident staff members receive an additional (i) 7% of basic salary for Post Adjustment allowance; (ii) 7% of basic salary for Hardship allowance; (iii) Rental subsidy of 40% of the rent rate up to maximum of US\$ 6,000 annual; (iv) Education Grant of 75% of max. expense of US\$ 13,000; (v) Travel cost and Shipment expenses on assignment and upon separation; (vi) other entitlements and benefits such as Relocation Grant allowance, Home Leave Travel, Education Grant Travel, etc.

The duration of the assignment of MRC Riparian Professional Staff is up to maximum 6 years according to 1995 Mekong Agreement and Procedural Rules.

THE MRCS RESERVES THE RIGHT TO APPOINT A CANDIDATE AT A LEVEL LOWER THAN THE ADVERTIZED LEVEL OF THE POST.

#### 7. Remarks

- The Job Description is subject to revisions by the MRC.
